

Welcome to NYSCC Supplier's Day

Welcome to our booth, #631, at NY Supplier's Day 2010.

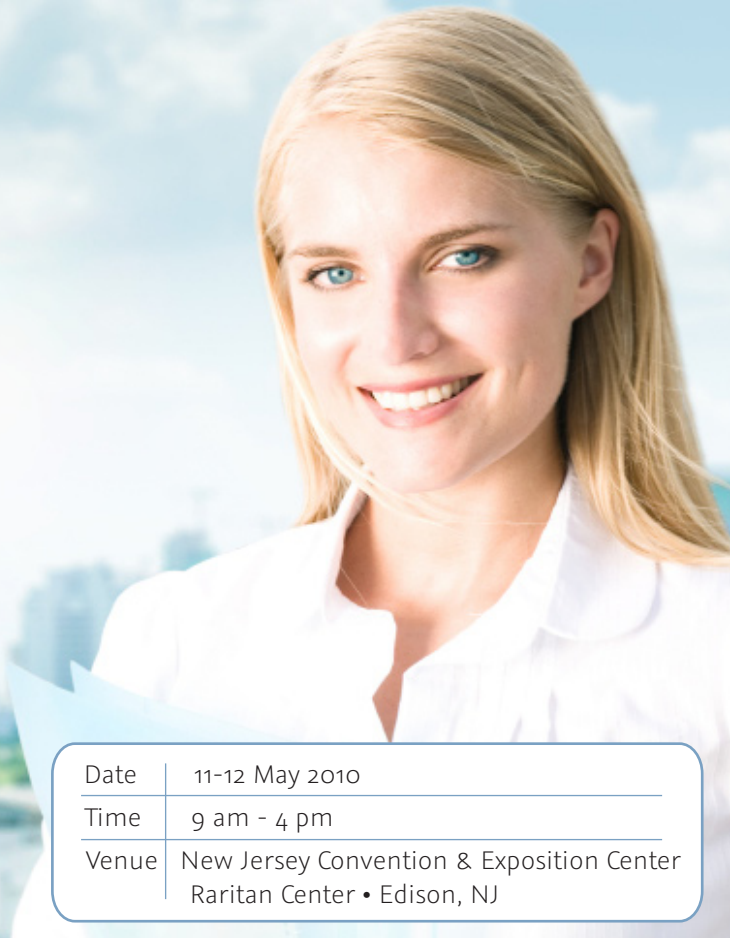

City living can introduce a variety of environmental stressors to the skin, causing signs of aging and stress. This year, we focus on protection and mildness to reduce the effects of daily exposure, with several exciting new products:

PhytoCellTec Alp Rose - The newest stem cell active from Mibelle Biochemistry, PCT Alp Rose boosts skin regeneration and vitality.

Galaxy Mild Surfactants - From natural sources and specifically designed to be gentle on the skin, these mild cleansers offer function and elegance.

We'll also be highlighting our line of high quality specialty proteins.

Stop by our booth to learn how these exciting technologies can work for you. We look forward to seeing you at the show!

Date	11-12 May 2010
Time	9 am - 4 pm
Venue	New Jersey Convention & Exposition Center Raritan Center • Edison, NJ
