

Toiletries | Elegant Personal Care Solutions

We offer a targeted range of solutions uniquely designed to enhance the efficacy of personal care products.
Our elegant personal care solutions are functional additions to personal cleansing, grooming and oral care products.

Antiperspirant and Deodorant

Trade Name	Description	INCI	Use Level
Alcloxa	Astringent and anti-microbial properties of aluminum combined with the soothing and healing properties of Allantoin. For use in antiperspirants, acne treatments and foot care products.		Aluminumchlorhydroxyallantoinate
Deosent	A natural and effective solution to odor control based on fermentation technology.		<i>Saccharomyces</i> Ferment
Natrisent	Botanical active developed to protect skin from the urea-urease interaction.		Propylene Glycol, Aqua/Water, <i>Hamamelis Virginiana</i> (Witch Hazel) Extract, <i>Quercus Infectoria</i> (Oak) Gall Extract, Glycine, Arginine, Leucine

Cleansing

Trade Name	Description	INCI	Use Level
CAPB DC	An amphoteric surfactant frequently used in oral care products, CAPB DC can be successfully used in personal cleansing products as well.		Cocoamidopropyl Betaine
Galsoft SCG HP	A mild, natural surfactant composed of glycine and fatty acids.		Sodium Cocoyl Glycinate
Galsoft SCI	A skin pH neutral surfactant for non-irritating, mild cleansing products.		Sodium Cocoyl Isethionate
Galsoft SCT	Widely used in oral care as a milder alternative to SLS. Also effective in mild skin and hair care.		Sodium Cocoyl Methyl Taurate

Exfoliating

Trade Name	Description	INCI	Use Level
LaraCare® Azoo	Natural enhancer for skin actives, has many skin care benefits including AHA skin exfoliation without irritation. ECOCERT certified.	Galactoarabinan	2 - 5%

Oral Care

Trade Name	Description	INCI	Use Level
CAPB DC	An amphoteric surfactant for oral care products, used to reduce the irritation potential of anionic surfactants such as SLS and SLES. CAPB DC has been specifically designed to reduce the bitter taste often associated with standard CAPB.	Cocoamidopropyl Betaine	2 - 10%

Shaving

Trade Name	Description	INCI	Use Level
Allantoin	An exceptional healing, soothing and moisturizing agent.	Allantoin	0.1 - 2%
Aquacacteen	Designed to sooth and hydrate the skin. ECOCERT certified version available.	<i>Opuntia Ficus-Indica</i> Stem Extract, Glycerin Phenoxyethanol, Aqua/Water	0.5 - 2%
Barla-Tein™ Pro	A protein hydrolyzate made from food-grade Golden Barley. Gently hydrolyzed without enzymes to create an effective moisturizer and anti-irritant. Ideal for men's grooming products.	Hydrolyzed Barley Protein	1 - 10%

Warming and Cooling

Trade Name	Description	INCI	Use Level
Vitamin E Nicotinate	Ester of niacin and tocopherol; a unique agent that gives the same warming effect on the skin as Nicotinate.	D-Alpha Tocopheryl Nicotinate	0.1 - 5%
